Company: JobContax

Location: Ireland

Category: architecture-and-engineering

Job Description

Our client are a large Irish owned Facilities Management company and work in multiple sectors including; Pharmaceutical and Life Sciences, Healthcare, Manufacturing, Education, Corporate, Government, Public Buildings, and Retail.

They are currently recruiting for an Electrical Engineer to join our team on a full time permanent contract. The successful applicant will be based between sites and our Head Office in Dublin and will be expected to travel to meet the needs of the business and projects.

Involvement in all aspects of the preconstruction stage to include health and safety, technical submissions, construction drawing production, prefabrication, building control submissions and the management of the projects commissioning phase

Undertake project work by taking responsibility for the preparation of engineering designs for electrical installations and systems

Data manipulation of original drawings according to the revision of the specification

Conduct independent reading and research to ensure drawing/specification accuracy

Liaise with various contractors regarding the design and coordination of installations

Preparation of Operations and Maintenance Manuals

Proactively enhance and improve the service delivered by the client.

Support the Projects Division in promoting a culture of excellent customer service and establishing exceptional working relationships with both your colleagues and the client

Act as a brand ambassador and lead the Company through its ongoing expansion

Any other duties as deemed necessary for the efficiency of the business

Requirements

Graduate with a degree in Building Services or Electrical Engineering

Minimum of 5 years' experience in a fast-paced construction environment

Must have a thorough understanding of I.S.10101, I.S.3217 and I.S.3218

Background in consulting and/or construction is highly desired

A basic working knowledge of CAD functionality with MS Office experience

Ability to use IT based calculations and spreadsheet software

Health & Safety awareness with an understanding of the legislation and required standards

Exceptional time management skills with the ability to meet strict deadlines and prioritise their own workload

Package

50k - 65k Salary negotiable for the right candidate.

Full time Permanent role.
