Company: TRS Consulting

Location: Ireland

Category: architecture-and-engineering

### Job Description

#### Field Service Engineer, CT Imaging Systems

**\*\*\*Excellent opportunities for experienced Service Engineers from a range of electronics / electro-mechanical systems backgrounds to join a market leading supplier of CT imaging systems \*\*\***

**Basic Salary €50,000**

**20% Shift Allowance**

**On Call Allowance**

**Overtime**

**Mileage**

**Full Product Training**

**Phone, Laptop**

**Holidays**

#### The Role – Field Service Engineer, CT Imaging Systems

This market leader seeks to recruit a technically motivated and customer focused Service Engineer, responsible for the service, installation and breakdown repair of a wide range of sophisticated CT imaging systems. The role involves a rota of five weeks on shift in Dublin

and two weeks in the field.

### **Your Background – Field Service Engineer, CT Imaging Systems**

To succeed in this exciting role you must be able to demonstrate:

A competent background in a service or maintenance engineering capacity gained within any high value capital equipment environment

Applications are encouraged from engineers with a broad range of backgrounds, including:

- imaging
- printing / pre-press
- semi-conductor
- manufacturing
- electronics / electro-mechanical
- laboratory / medical / pharmaceutical
- ex forces engineers (medical and dental, weapons systems, radar, REME electronics)

A qualification in engineering or electronics is also essential

Applicants are welcome from service engineers from a broad base of sectors, as full and comprehensive product training will be provided

### **The Company - Field Service Engineer, CT Imaging Systems**

Well respected supplier of sophisticated imaging systems

Trusted by security and defence organisations throughout the world

Instantly recognisable brand leader supplies a variety of innovative imaging-based systems to the security sector

Offers 'best in class' solutions across their range of products

Supported by a truly multi-national 'blue-chip' technology group with representation in over 150 countries

Their commitment to investment in research and development is second to none in their industry, ensuring that they remain a market leader

At the core of their business lie product innovation, excellent customer service and good people

This vacancy is being advertised by TRS Consulting. The services advertised by TRS Consulting are those of an employment agency and / or an employment business.
